Our goal is to make cash handling easier and more affordable

Who says cash is going away?

BENEFITS

- Easy maintenance and updates: Software updates completed in minutes. Drawers designed for easy removal and replacement.
- No hard drives: Armor safes use flash storage, making it more reliable and longer-lasting than a traditional hard drive.
- Best product for the dollar: Simple and easy to maintain!

DESCRIPTION

All Armor Safes are made with premium grade 80 steel. It's 60% stronger than generic steel normally used. This material is found in the self-locking vault door with three 1-inch chrome-plated locking bolt protected by a drill-resistant hard plate. Everything about this design signals 'jail time' to any potential thieves.

The 7000 series ensures greater cash security and employee accountability. Each transaction is tracked through every user's PIN. Up to 10 privileges may be assigned to each user. Owners should naturally have more access to the safe and they may easily discern and distribute responsibilities to employees.

These machines also dispense change from an easy-to-load and easy-to-audit vending magazine. Choose between the 7300, 7100, and 7900W, depending on how much change and how many bill validators are preferred or needed.

What more could a business ask for from a safe? It will do all the tedious work of a bookkeeper and bouncer to provide seamless accounting between the point of sale and the bank.

FEATURES

- ✔ **Audit trails: Each user has a PIN number and you have over 30 types of receipts plus reports to choose from and manage it all.**
- ✔ **Bill validation: Single or bulk note bill validators have the highest level of first-time bill acceptance and counterfeit detection.**
- ✔ **Customizable: This technology builds and lays out each board in CacheSYSTEM Safes. This offers the flexibility to configure the machine to owner's unique needs.**
- ✔ **Storage, storage, and storage: Up to 120-tube vending magazine and a 2200-note cassette, depending on the chosen model.**
- ✔ **Easy to load and count: Front door access for a visual count of change levels.**
- ✔ **Liquid-resistant keypad: In case of spills, the cash security will not be compromised.**
